Mack Hills Metal Fabrication, a leader in metal fabrication and precision machining, strives to exceed our customers' expectations using our **ISO 9001:2015 Certification** for Product Quality. We make On-Time Delivery a priority and continually focus on 1st class Customer Service.

It all starts with well over a century of combined experience in our engineering and administrative staffs. Couple that with our ERP software and we can process your RFQ's and orders quickly. We will keep you posted with real time manufacturing updates, expedite your orders, and deliver a quality product as promised. Below is a sampling of the equipment we use to exceed your expectations.

Production Equipment

Cutting

- Amada 2,000-watt Fiber Laser
- Amada 2,500-watt CO2 Laser
- Murata Wiedemann 20-ton Turret Punch Press with a 30-station turret

Forming

- Amada 143-ton x 10 ft bed Press Brake
- Cincinnati 135-ton x 12 ft bed Press Brake
- Cincinnati 90-ton X 10 ft bed Press Brake
- Pacific 90-ton x 10 ft bed Press Brake

Stamping

- Verson 150-ton Stamping Press
- Niagara 110-ton Stamping Press
- Federal 22-ton Stamping Press
- Cincinnati 225-ton Press

Auxiliary Equipment

- Amada ¼" x 10 ft Power Shear
- Baileigh M-250Tube/Pipe Bender
- Marathon 10" Cold Saw
- 2 - Soco 12" Cold Saw

Powder Coating

- 12' W x 20' L x 8' H Batch Powder Coating System
- Automated Powder Line with 3 stage wash system

Machining Center

- Haas VF5SS Vertical Milling Center
- Haas VF4SS Vertical Milling Center
- Haas VF-OE Vertical Milling Center
- Haas SL-20TB CNC Lathe
- Haas SL-20T CNC Lathe
- Sodick A-300W Wire EDM
- 3 Horizontal Surface Grinders up to 32" x 16"
- 6 Chevalier & Bridgeport Milling Machines
- Leblond Makino "Regal" Engine Lathe

Welding Centers

- 6 Tig Welding Stations w/Certified Welders
- 8 Mig Welding Stations w/Certified Welders
- 4 Spot Welding Stations (Rocker Arm & Press)
- Magnatech 514 Orbital Welder

Quality Assurance

- ISO 9001:2015 Certified
- FARO CMM Precision Measuring Arm
- Micro Vu S-14 Horizontal Beam Optical Comparator

As your "**build-to-print fabricator**" we look forward to sharing our expertise and capacity for your component needs.
